

Claims Against Attorneys and Law Firms

Dunn DeSantis Walt and Kendrick, LLP – primarily through partners [David D. Cardone](#) and [Adam J. Yarbrough](#) – regularly pursues high value and catastrophic legal malpractice claims on behalf of parties who were damaged as the result of the errors, negligence, or intentional misconduct of those parties' former attorneys. These professional liability actions range from straightforward negligence theories to breach of fiduciary duty and fraud claims. DDWK works in close collaboration with [Stanford & Associates](#) on all such claims against attorneys and law firms, in California and elsewhere in the United States. DDWK's relationship with Stanford & Associates – a firm whose practice is exclusive to the representation of plaintiffs with claims against attorneys and law firms – began decades ago, when DDWK was regularly engaged to defend lawsuits against attorneys and law firms that had been filed by [Dan Stanford](#), of Stanford & Associates. In recent years, the firms have paired to pursue these claims together, a high profile collaboration that has resulted in the recovery of millions of dollars for the victims of their prior attorneys' mistakes.
